

Next-level, vibration-tuned aerospace grade carbon ski construction melded with absolutely the finest supporting materials.

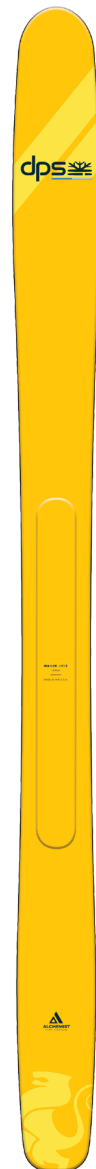

The world's most advanced ski construction takes a significant evolutionary step forward. Alchemist Pure carbon skis are the ultimate expression of the craft. Next-level, vibration-tuned aerospace grade carbon ski construction melded with absolutely the finest in supporting materials. Alchemist skis retain the same historical shapes as their Pure3 predecessors, but due to the construction upgrades are notably damper and smoother in mixed and firmer conditions.
